

Our Trolley Range

Modular, fully-configurable trolley systems

ARROW
COUNTY SUPPLIES

About

Combining modern, highly functional design with quality materials and innovative technologies, our modular trolley systems are at the heart of every cleaning routine.

Constructed using a lightweight aluminium frame, double layer panelling and featuring a unique Easy&Clean coating, our trolleys help make cleaning faster, safer and easier for every operative - bringing together waste disposal, mopping, and storage into one easy-to-use trolley frame.

Look Out For Our ECO Range!

Manufactured in line with ISO:10021:2016 standards and made with over 90% recycled plastic, our zero-impact ECO range reflects our commitment to sustainability.

ECO versions available for all trolleys with the  symbol (see page 8 for full range)

Infection Prevention & Control

Trolleys offering best practice options to minimise cross-contamination when mopping:

IPC Range - For 'touch-free' best-practice mopping, featuring high capacity buckets specifically designed for the storage of pre-dosed flat mops, with a wide range of compatible flat mops available (see page 8).

DUO Range - A double-bucket mopping system keeping 'dirty' rinse water separate from the 'clean' detergent solution.

Easy&Clean Coating - The unique Easy&Clean coating reduces dirt and liquid adhesion to trolley surfaces, improving hygiene levels.

Safe Storage

With options to suit all budgets, our base range of trolleys offer various storage options to suit all your individual needs:

COMPACT Range - Deep trays and drawers give great storage capacity, allowing easy transport throughout cleaning routines in areas where space is tight.

PLUS Range - Contains additional storage space, with a wide range of accessories available to further enhance storage space (see page 8).

Fully Lockable - Providing safe and secure storage of potentially hazardous cleaning chemicals whilst cleaning high-risk public areas such as schools or hospitals.

Hygienic Disposal

Secure, contained and easily-accessible waste disposal, mounted on a central waste sack frame.

Accessories - Additional accessories include Plasticised Bag (see page 9) for the collection of waste sacks from multiple bins throughout your janitorial routine.

MULTI Range - Provides internal waste units for high capacity storage and hygienic waste disposal, whether indoors or outdoors.

Robust Design - Robust frames and modular design means that waste disposal sections are strong and durable.

Watch In Action

Sturdy, durable and ultra-hygienic, our IPC range seamlessly integrates best-practice infection prevention and control techniques within a highly versatile trolley frame.

COMPACT IPC 60

72-296

A compact pre-dosed mopping trolley with a range of handy storage options - perfect for medium-large areas where infection control is a priority.

- Holds up to 60 pre-dosed mops
- 2 deep storage trays
- Mounted waste sack frame

Dimensions: 92 x 62 x 119cm

IPC 100

72-297

Combining pre-dosed mopping with an innovative central storage design, the IPC 100 promotes highly efficient cleaning routines.

- Holds up to 100 pre-dosed mops
- Enclosed, lockable central compartment
- Mounted waste sack frame

Dimensions: 141 x 62 x 107cm

IPC 140 PLUS

72-298

The ultimate solution to IPC, featuring integrated pre-dosed mopping, hidden colour-coded buckets and a large internal storage compartment.

- Holds up to 140 pre-dosed mops
- Two lockable central compartments
- Mounted waste sack frame
- Hidden, colour-coded storage buckets

Dimensions: 182 x 62 x 107cm

Please note, some components shown are additional accessories - see page 8 for full component list for each trolley.

DUO

Multitask without compromise using our DUO trollies, combining wet mopping, central storage and waste disposal in an easy-to-use, modular trolley frame.

COMPACT DUO

72-437

All the features of our DUO range in one compact trolley system - perfect for areas where space is tight.

- Double-bucket mop and wringer
- Mounted waste sack frame
- Configurable storage options

Dimensions: 92 x 62 x 103cm

DUO

72-439

A flexible open cleaning trolley, complete with integrated double-bucket mopping, central waste disposal and colour-coded central buckets.

- Versatile central storage section
- Double-bucket mop and wringer
- Mounted waste sack frame

Dimensions: 130 x 62 x 103cm

DUO PLUS

72-278

A sturdy, multipurpose double-bucket mopping trolley, boasting an additional internal storage unit for maximum versatility.

- Lockable central storage compartment
- Double-bucket mop and wringer
- Mounted waste sack frame

Dimensions: 130 x 63 x 103cm

Please note, some components shown are additional accessories - see page 8 for full component list for each trolley.

MULTI

Equally effective indoors and outdoors, our robust MULTI trolley ensures optimum cleaning performance, every time. Simply pre-load with your cleaning essentials and take to any location.

MULTI

72-445

Highly mobile cleaning trolley, with contained internal waste compartment and storage unit. Suitable for outdoor use.

- High-capacity internal waste and storage unit
- Robust outdoor wheels
- Mopping options available

Dimensions: 90 x 62 x 208cm

Mopping Accessories

PLANO

72-321 | Each

An ergonomic folding flat mop, designed for use with our DUO mopping system.

- Double spring locking mechanism
- Universal connector
- Articulated joints for manoeuvrability

PLANO WET MOP PAD

72-508 | Each

Highly absorbent, durable wet mop pads, ideally suited for wet mopping.

PLANO WET MOP/ SCRUBBING PAD

72-699 | Each

Suited to mopping stubborn marks and stains. With abrasive strips to aid scrubbing.

VOLO

72-324 | Each

High-impact, wear-resistant flat mop, recommended for use with our IPC range.

- High-strength aluminium body
- Velcro pad connector
- Designed for pre-dosed mopping

VOLO MOP PAD

72-593 | Each

Microfibre mop pad, designed for pre-dosed mopping.

VOLO MOP/DUSTING PAD

72-596 | Each

Microfibre mop pads combining mopping and dusting.

ERGONOMIC ALUMINIUM HANDLE

72-330 | Each

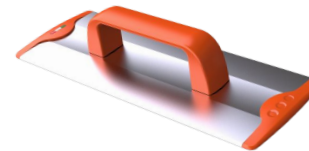

Aluminium handle with ergonomic grip (145cm).

TELESCOPIC MOP HANDLE

72-320 | Each

Telescopic handle with thread connector (160cm).

HANDHELD VOLO FRAME

72-339 | Each

Volo handheld frame with Velcro pad.

VOLO MOP/DUSTING PAD

72-510 | Each

Microfibre pad for wiping and polishing hard surfaces.

Trolley Accessories

40L DRAWER

72-702 | Each

- 40lt drawer for use within storage units.
- Available in 10L [72-465] and 20L [72-119]

Dimensions: 45 x 29 x 33cm

120L PLASTICISED BAG

72-151 | Each

Versatile 120L plasticised bag, suitable for laundry or waste disposal.

Complete with hinge

22L DISINFECTION BUCKET

71-184

22ltr disinfectant bucket for pre-dosing of mops, fitting easily on to our IPC trolleys. Holds up to 30 pre-dosed mops.

Lid sold separately

A-FRAME HOLDER

72-128

Closed tray to securely hold mops, attaching to the base of the trolley frame.

Lid sold separately

PRE-IMPREGNATION GRID

72-186 | Each

PRE-IMPREGNATION LID

72-187 | Each

50L NET MOP BAG

72-555 | Each

Netted bag for storage and laundering of used mop pads.

Available in Red, Blue and Yellow.

LID FOR 22L DISINFECTION BUCKET

72-185 | Each

Strong, rigid lid for disinfection bucket, preventing contamination of pre-dosed mops.

SILENT WHEEL

72-131 | Each

- Silent plastic wheel with fixings
- 120mm diameter.
- Available with brake [72-130].
